¹ AustralianSuper Balanced investment option compared to the SuperRatings Fund Crediting Rate Survey – SR50 Balanced (60–76) Index³ and SRP50 Balanced (60–76) Index⁴. Investment returns aren't guaranteed. Past performance isn't a reliable indicator of future returns. Returns from equivalent investment options of the ARF and STA super funds are used for periods before 1 July 2006.

² For TTR Income accounts, the investment return is based on the crediting rate for super (accumulation) options. From 1 April 2020 to 2 September 2022 the crediting rate includes an administration fee that was deducted from investment returns for super (accumulation) accounts. TTR Income accounts will be adjusted to refund the administration fee deducted from investment returns.

Actual allocation is the effective exposure to each asset class. The percentage may differ to the top 10 investment manager positions due to manager cash holdings and overlay strategies.

Investment fees and costs¹

Financial year ending 30 June 2024

	Investment fees and costs (excluding performance fees)	Performance fee	Total investment fees and costs	Transaction costs
Super and TTR Income	0.43%	0.09%	0.52%	0.05%
Choice Income	0.42%	0.09%	0.51%	0.05%

¹ Calculated based on the actual Investment fees and costs (excluding performance fees) incurred for the year ended 30 June 2024 and expressed as a ratio to the average value of all the assets in the investment option over the year. Performance fees are based on an average of the actual fees incurred over the last five financial years. Transaction costs are calculated based on the actual costs incurred for the year ended 30 June 2024 and are expressed as a ratio to the average value of all the assets in the investment option over the year. These fees and costs are variable and are likely to change from year to year. Visit australiansuper.com/fees for more details.

Currency management

Returns for international assets can be affected by the ups and downs of the exchange rate as well as changes in investment values. To help protect investment options that include international assets from adverse currency movements, a target currency exposure is set for investment options. Currency exposure is actively managed.

	Actual currency exposure	Target currency exposure
Foreign currency exposure	19.9%	19.5%
