AustralianSuper investment returns are based on crediting rates, which are returns less investment fees, the percentage-based administration fee (applicable from 1 April 2020) and taxes.

Returns from equivalent investment options of the ARF and STA super funds are used in calculating since inception returns for options that began before 1 July 2006.

For TTR income accounts, the investment return is based on the crediting rate for super (accumulation) options. From 1 April 2020 this crediting rate includes an administration fee (of up to 0.04%pa), which only applies to super (accumulation) accounts and does not apply to TTR Income accounts. TTR Income accounts receive an adjustment, to refund the administration fee.

Investment returns are not guaranteed. Past performance is not a reliable indicator of future returns. All care is taken to ensure this information is correct at the date of publication. Any errors or misprints will be corrected by the Trustee in later reports.
