AustralianSuper investment returns are based on crediting rates, which are returns less investment fees and costs, transaction costs, the percentage-based administration fee deducted from returns from 1 April 2020 to 2 September 2022 and taxes. Investment returns aren't guaranteed. Past performance isn't a reliable indicator of future returns.

Returns from equivalent investment options of the ARF and STA super funds are used in calculating since inception returns for options that began before 1 July 2006.

For TTR Income accounts, the investment return is based on the crediting rate for super (accumulation) options. From 1 April 2020 to 2 September 2022 the crediting rate includes an administration fee that was deducted from investment returns for super (accumulation) accounts. TTR Income accounts will be adjusted to refund the administration fee deducted from investment returns.

Investment returns are not guaranteed. Past performance is not a reliable indicator of future returns. All care is taken to ensure this information is correct at the date of publication. Any errors or misprints will be corrected by the Trustee in later reports.
