Note: Percentages may not total 100% due to rounding. Due to the Fund's different cashflow management approaches for superannuation and retirement income accounts, there may be a slight difference in the asset allocations for these options at any given time. As the volume of cashflows in the accumulation option is high, member funds enter and exit the Fund via our cash holdings and are then paid out or directed into the members' chosen investment option(s). For retirement income accounts, members' funds go directly into or out of the members' chosen investment option(s).

* Growth asset allocation includes 100% of Australian shares, International shares, Private equity, Listed property, Listed infrastructure and Other assets. Direct property, Unlisted infrastructure and Credit are classified as 50% growth and 50% defensive. The Infrastructure allocation includes both listed and unlisted infrastructure. Defensive allocation includes 100% of Fixed interest and Cash.
