

Five ways to fast track your super

Follow these simple steps to help change your financial future for the better.

1. Compare

Choosing a super fund that puts members' profits before its own is a great place to start, so make sure you choose wisely. To compare us with other funds, go to australiansuper.com/compare

☐

2. Consider consolidating

Combining your super could mean fewer fees¹. Consolidate your existing super at australiansuper.com/consolidate or find your lost super at australiansuper.com/LostSuper

☐

3. Contribute extra

Consider adding a little extra to your super, as it could make a big difference to your final balance². Find out more at australiansuper.com/growyoursuper

☐

4. Check insurance

Most super funds offer default insurance for death and permanent or temporary disablement. It's worthwhile checking if you have adequate cover, need additional cover or if you're paying for premiums you're not aware of.

☐

5. Continue with your Fund

Even if you switch jobs or retire, selecting a good fund right from the start is a wise choice. It's worth considering continuing with it if they're providing strong long-term returns with relatively low fees.

☐

¹ Before making a decision to combine your super, consider any fees or charges that may apply, and the effect a transfer may have on benefits in your other fund such as insurance cover. We recommend you consider seeking financial advice.

² Before adding to your super, consider your financial circumstances, contribution caps that may apply, and tax issues. We recommend you consider seeking financial advice.
