

Get started with your new account

Now that you've received your *Welcome pack* and first super payment into your new AustralianSuper account, there's a number of things you can do to help your super work for you as well as it should.

1. Have your member number handy to **access your online account**. You can also get easy access to your account with the **AustralianSuper app**.
2. A *Set Up Your Account* form is included with your *Welcome pack* which gives you the option to:
 - **Start your basic (default) insurance cover**. This cover provides a basic level of protection if you die or become ill or injured. If you pay for your basic cover, it can only be provided automatically if you're 25 or older; and your super balance reaches \$6,000; and you've received an employer super contribution after your super balance first reaches \$6,000. You can apply to start this basic cover before you meet the above criteria.
 - **Apply for additional cover** without having to provide detailed health information for the insurer to consider (limits and conditions apply). If you apply for additional cover, it will be limited cover for at least two years. You have 120 days from the date of your *Welcome pack* to apply for this offer.
 - **Update your individual work rating**. Read the *Insurance in your super* guide to find out more about the benefits of reviewing your individual work rating and how you can apply to change it.
3. The **AustralianSuper insurance calculator** can help you work out how much insurance cover you may need.
4. Read the *Insurance in your super* guide for more information on how you could transfer cover and if it's right for you.
5. Visit **australiansuper.com/combine** to learn how you can roll your super into one account from other funds. Combining your super funds doesn't happen automatically*.
6. **Nominate** who'll receive your super and insurance money if you pass away. This will tell us who you want your account balance and insurance paid to.
