About this Product Disclosure Statement

This Product Disclosure Statement (PDS) is a summary of significant information and contains a number of references to important information (each of which forms part of the PDS). You should consider that information before making a decision about the product. This information is current at the date of publication, but may change frequently. You should check the website for current information. A paper copy of the changes is available on request at no extra charge.

The information provided in the PDS is general information only and doesn't take into account your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

2 How super works

Super is an important way for you to save for retirement.

Super is an investment for your future and the sooner money starts going into your account, the better off you'll be when you retire. That's because over the long term your super grows from investment returns and money that's added to your account regularly.

There are a number of ways money can be added (contributed) to your account.

Superannuation Guarantee contributions

Employers pay a compulsory contribution to your super known as the Superannuation Guarantee (SG). Currently this is an amount equal to 9.5% of your annual salary (subject to salary cap).

There are also other types of contributions that could help you grow your super.

Personal contributions

- › **Before tax*** – includes salary sacrifice contributions made by you, any personal contributions for which you claim a tax deduction and voluntary contributions made by your employer for which they claim a tax deduction.
- › **After tax*** – includes any extra additional contributions you make from your take-home pay, for which you don't advise us you wish to claim a tax deduction.

Government Co-contributions

Depending on your income, you may be eligible to receive Government Co-contributions if you make after-tax contributions to your super.

To find out if you're eligible, visit australiansuper.com/CoContributions

Useful information to know

Tax breaks and incentives are provided by the Government to encourage you to save more for retirement and grow your super over time.

You generally can't access your super savings until you're 55 or over (depending on the year you were born). To learn more about preservation age, visit australiansuper.com/AccessYourSuper

It's your super, it's your choice

Normally you can tell your employer where you want your super to be paid. But in some cases, it depends on your employment contract. If you don't make a choice or tell your employer where you want your super paid, they'll pay your contributions into their preferred super fund.

* Depending on your income and personal circumstances, you may be better off contributing before or after tax, or using a combination of both. The Government places limits on the amount that can be contributed to super. To learn more, visit australiansuper.com/InfoTax

4 Risks of super

All investments, including super, have some risk.

How you invest your super will depend on your age, how long you'll invest your super, other investments you may have and your tolerance for volatility. Volatility is when the returns on your investment go up and down over a period of time. The level of volatility your super investment could have will depend on the types of assets that your super is invested in. Assets are investments such as shares, property, fixed interest or cash.

Different types of assets have different levels of potential return and volatility. Generally, higher returns are accompanied by greater potential for volatility in the short term.

You can choose from a range of investment options, each with a different mix of assets. So, the likely investment return and the level of potential volatility of returns involved is different for each option.

What you need to think about

When considering your super, it's important to understand that:

- › investment returns may go up and down over time and the value of investments will vary, so the value of your super may also go up and down
- › investing too conservatively can be risky because over the long term your investment may not earn a return above the inflation rate
- › returns aren't guaranteed, and you may lose some of your money
- › past returns aren't a reliable indicator of future returns
- › the laws affecting your super may change
- › the amount of your future super savings (including contributions and returns) may not be enough for your retirement.

5 How we invest your money

When you join AustralianSuper you'll automatically be invested in the default Balanced option – our MySuper authorised product, unless you choose a different investment option. You should consider the likely investment return, risk and your investment timeframe when choosing an investment option.

Investment details for the Balanced option

This option invests in a wide range of assets, with a higher allocation to shares, infrastructure and property than fixed interest and cash. It's designed for members seeking medium to long-term growth who are willing to accept short-term fluctuations in returns.

Investment objective

To outperform (after fees and taxes) the return of the median balanced fund and an average annual return of CPI + 4% over the medium to long term[†].

Minimum investment timeframe

Be prepared to stay invested in this option for at least 10 years before it meets its objectives.

Risk levels

- › Short-term risk classifies investment options according to their likelihood of negative returns in a given year. This is also known as the Standard Risk Measure.
- › Medium-term risk balances two risks. The first is that your super savings will be reduced by volatility and the second is that your super savings won't keep up with inflation.
- › Long-term risk is the risk that your super savings won't keep up with inflation.

How often you can expect a negative annual return

Approximately 5 out of every 20 years.

Balanced option investment mix – strategic asset allocation and ranges*

[‡] From time to time, we may invest in other assets which represent a short or medium-term opportunity based on them being attractively priced. These include but aren't limited to assets such as commodities, royalties or leases.

6 Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You or your employer, as applicable, may be able to negotiate to pay lower administration fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

Fees for the Balanced option

The main fees to set-up and manage your account are below. These are based on our Balanced option, and can be used to compare our fees with similar funds.

Type of fee	Amount	How and when paid
Investment fee	0.66%	Deducted from before-tax investment returns on 30 June each year (earlier if you close your account), before the returns are applied to your account.
Administration fee	\$1.50	The administration fee of \$1.50 per week is calculated weekly and processed monthly from your account. This fee is paid into the Fund's administration reserve. The Fund pays its administration costs from the administration reserve. For the 12 months to 30 June 2018, the Fund's estimated costs were \$1.72 per member (gross of tax). The Fund claims a tax deduction for administration costs each year. The amount of the deduction is also paid into the administration reserve.
Buy sell spread	Nil	
Switching fee	Nil	
Exit fee	\$35	Charged on withdrawals.
Advice fees* relating to all members investing in a MySuper product or investment option	\$0- \$295	This is the cost for over-the-phone advice. For face-to-face advice, a higher fee applies which may be deducted directly from your account.
Other fees and costs		Go to australiansuper.com/RefFees for information about other costs. Refer to section 7 of this PDS for tax details and section 8 for insurance costs.
Indirect cost ratio	Nil	

The Investment fee for our other investment options is different. This fee is calculated looking back as at 30 June each year. It may change from year to year.

Example of annual fees and costs for a MySuper product

This table gives an example of how the fees and costs for the generic MySuper product can affect your superannuation investment over a one year period. You should use this table to compare this superannuation product with other superannuation products.

Example – MySuper Product		Balance of \$50,000
Investment fee	0.66%	For every \$50,000 you have in the MySuper product you will be charged \$330 each year.
PLUS administration fees	\$78 pa (\$1.50 a week)	AND you will be charged \$78 in administration fees regardless of your balance.
PLUS indirect costs for the MySuper product	Nil	AND indirect costs of \$0 each year will be deducted from your investment.
EQUALS cost of product		If your balance was \$50,000, then for that year you will be charged fees of \$408 for the MySuper product.

Note: Additional fees may apply.

AustralianSuper can change the fees which you may be charged. You'll be given at least 30 days' notice before any increase in fees takes effect.

See section 7 of this PDS for information on how super is taxed and section 8 for insurance information and costs.

Adviser service fee

If you get advice* from an eligible adviser about your investment with AustralianSuper, you may have fees for the advice deducted from your account. The *Statement of Advice* provided by the adviser will state the fees (if any) that you will pay.

See how fees affect your super

Use the Superannuation calculator at moneysmart.gov.au

You should read the important information about fees and costs before making a decision. Go to australiansuper.com/RefFees

This contains information about service fees and fees for our other investment options. The material relating to our fees may change between the time when you read this PDS and the day when you acquire the product.

* The financial advice you receive will be provided under the Australian Financial Services Licence held by a third party and not by AustralianSuper Pty Ltd (AustralianSuper) and therefore isn't the responsibility of AustralianSuper. With your approval a fee may be charged if a *Statement of Advice* is provided.

7 How super is taxed

Tax on contributions

The tax paid on super contributions depends on the amount and type of contribution. Tax is deducted after the contribution is received. There are limits on how much you can contribute, and if you exceed these limits you may pay extra tax.

Type	Tax on contributions in 2018/2019
Before-tax contribution	<p>If your income is \$250,000 or less, 15% will be applied to contributions up to the before-tax contributions cap of \$25,000.</p> <p>If your income (including your before-tax contributions) is over \$250,000, all or some of your before-tax contributions will be taxed at 30%. Contributions that exceed the cap will be taxed at your personal rate (less a 15% tax offset), plus an interest charge.</p> <p>You can choose to withdraw up to 85% of excess contributions, which won't then count towards your after-tax limit.</p>
After-tax contribution	<p>No tax on amounts up to the after-tax contributions cap of \$100,000 a year (or \$300,000 over 3 years if certain conditions are met).</p> <p>You can choose to withdraw any excess contributions plus 85% of its earnings. These earnings will be taxed at your personal rate (less a 15% tax offset). If you don't withdraw the excess contributions, they will be taxed at 47%* in the fund.</p> <p>There may be restrictions on the after-tax contributions you can make if you already have a very large balance in your super account/s.</p>

Tax on investment earnings: Investment earnings are taxed at up to 15%. This tax is deducted from the crediting rate that applies to your super, before the earnings are credited to your account.

Tax on withdrawals: Your super is made up of two components: taxable and tax-free. There's no tax payable on the tax-free component. Withdrawals are generally tax-free if you're aged 60 or over.

Tax on the taxable component if you're under 60

2018/2019 – If you're between your preservation age and 59, the first \$205,000 is tax-free and the balance is taxed at 17%*.

If you're younger than your preservation age, your lump sum withdrawal will be taxed at 22%*.

Tax on withdrawals is deducted before you receive your payment.

Tax rates, contribution limits and the way excess contributions are treated are subject to change. You should read *Tax and super* at australiansuper.com/RefSuperTax

You should provide your Tax File Number (TFN). If we don't have your TFN, your before-tax contributions and withdrawals are taxed at a higher rate and we can't accept after-tax contributions from you. You should read the important information about providing your TFN before making a decision.

Go to australiansuper.com/RefTFN The material relating to tax may change between the time when you read this PDS and the day when you acquire the product.

* Including the Medicare levy of 2%.

Are you self-employed?

When you work for yourself, no one else will contribute to your retirement savings but you.

Regular contributions to your super will mean more in retirement, and the earlier you start, the better off you'll be. And the good news is, you may be able to claim your contributions as a deduction on your income tax return.

How to claim a tax deduction

From 1 July 2017, most Australians – not just self-employed people – can claim a tax deduction for personal (after-tax) contributions made into super. If aged between 65 and 74, you'll need to satisfy the work test to be eligible.

To claim a tax deduction for personal contributions, you need to complete a *Notice of intent to claim a tax deduction for personal super contributions* form and send it to us.

The amount of after-tax contributions for which you claim a tax deduction will then count towards your before-tax contribution cap and will be concessional tax at 15% within the Fund.

When to claim

Once you make a contribution, you have until the end of the following financial year to claim your deduction. But you need to send us your tax deduction claim form before you submit your tax return.

Example

Jane can submit her claim for a tax deduction up to 30 June 2019, but she must submit her claim form before she lodges her 2017/2018 tax return.

You also need to send us your tax deduction claim form before:

- › you leave AustralianSuper
- › you transfer some or all of your benefit to another super fund
- › you transfer some or all of your benefit to a retirement income account, or
- › you split your contributions with your spouse.

Otherwise you may not be able to claim your deduction.

This area of super tax law can be complex. Speaking with a financial adviser may help you get the full benefit of making personal super contributions.

To learn more about how to claim an income tax deduction for personal super contributions, go to australiansuper.com/forms

8 Insurance in your super

Insurance through AustralianSuper is designed to provide financial support if you die or become disabled.

AustralianSuper offers three types of cover.

- › **Death cover** – provides a lump sum to your dependants or your legal personal representative (executor of your estate).
- › **Total & Permanent Disablement (TPD) cover** – provides you a lump sum if you become totally and permanently disabled.
- › **Income Protection** – provides monthly payments if you become temporarily disabled.

Why insurance cover is important

Most people insure their important assets, like their car or home, but their biggest asset – their future income – is often left unprotected.

The right insurance can protect your salary against the unexpected, and give you an income or lump sum payment, depending on if you are temporarily or permanently unable to work.

You may need cover if:

- › you or your family need your salary to cover day-to-day expenses
- › you have debts such as a mortgage, personal loan or credit card, or
- › you support someone financially.

Insurance cover through your super

AustralianSuper is adopting the Insurance in Superannuation Voluntary Code of Practice which commenced on 1 July 2018. Read about the requirements, our insurance strategy and our premium adjustment arrangements at australiansuper.com/InsuranceCode

Applying for cover is easy

Cover isn't provided automatically when you join AustralianSuper's Personal Plan, but you can apply for cover anytime. You'll just need to provide detailed health information for the Insurer to consider.

For information about your eligibility for cover, how much cover you can apply for, what your insurance will and won't cover, and any other conditions, read our *Insurance in your super* guide available at australiansuper.com/InsuranceGuide

To apply for cover log into your account and go to *My insurance*. Or complete the *Change your insurance* form at australiansuper.com/forms

How much cover can I apply for?

You can apply for cover anytime, as long as you have enough money in your account to cover the cost of your first month of insurance. The maximum cover you can apply for is shown in the table below. Your application will be considered by the Insurer and you'll need to provide detailed health information.

Type of cover	Maximum amount of cover available
Death	No maximum
TPD	\$3 million
Income Protection	\$30,000 a month or 85% of your salary, whichever is lower

What is the cost of cover?

The cost of your cover will depend on the amount and type of cover you apply for, your age and your individual work rating (if applicable). Costs are deducted monthly from your super account. See our *Insurance in your super* guide for details.

What is an individual work rating?

The type of work you do determines your individual work rating – Standard, Low Risk or Professional. This makes a difference to how much you pay for your cover. Your work rating will be Standard, unless you apply to change it.

If you spend at least 80% of your time in an office environment and don't do any manual work, you may be eligible for a Low Risk or Professional work rating, which means your cover will cost less.

If you think you may be eligible for a Low Risk or Professional rating you can apply to change this by logging into your account and going to *My insurance*. Or answer the work rating questions in the *Change your insurance* form at australiansuper.com/forms when you apply for cover.

Transfer cover from another fund or insurer

You may be able to transfer your current Death, TPD or Income Protection cover from outside of AustralianSuper.

Change your cover anytime

You can cancel, change or apply for insurance cover anytime by logging into your account or completing the *Change your insurance* form at australiansuper.com/forms

Use our insurance calculator at australiansuper.com/calculators to work out the right level of cover for you, and the cost of it.

You should read the important information about insurance in your super before making a decision. Go to australiansuper.com/InsuranceGuide

The material relating to insurance may change between the time when you read this PDS and the day when you acquire the product.

9 How to open an account

There are two ways you can join us.

Join online

Set up your account the way you want – straight away!

Go to australiansuper.com/join

- › Set up your contributions.
- › Make your investment choice.

Send us an application form

Complete the *Join AustralianSuper* form provided with this guide.

You can change your mind about us

If you've chosen AustralianSuper (instead of your employer signing you up) you can cancel your membership by writing to us within:

- › 19 days of the date we received your application, or
- › 14 days of the date we send you confirmation of your membership.

If you cancel your membership during this period, we'll transfer your account to an approved fund of your choice. Any contributions tax we've paid on your behalf will be deducted beforehand. We'll also deduct any fees due.

Your account will attract earnings (positive or negative) for the period of time your super has been with the fund.

Cancelling your membership during this period means you won't be entitled to any insurance benefits.

Not happy with our service?

To make a complaint about your super account or general advice given by AustralianSuper, you can contact us by email, phone or post. Visit australiansuper.com/contact-us for more information.

We respect your privacy

Protecting your personal information is important to us. Our Privacy Policy outlines the type of information we keep about you. It also explains how we – and any organisations we appoint to provide services on our behalf – will use this information.

For more information on privacy, go to australiansuper.com/privacy

Temporary residents permanently leaving

If you're a temporary resident permanently leaving Australia, you have six months to claim your super from us before we have to transfer it to the Australian Taxation Office (ATO). Once we've transferred your super, you'll need to contact the ATO directly to claim it. Go to ato.gov.au

Under Australian Securities and Investments Commission relief, we don't have to give you an exit statement if we transfer your super to the ATO in these circumstances.

10 Changing jobs

When you change jobs there are good reasons to keep your AustralianSuper account.

If you're changing jobs, your new employer will ask you to nominate a super fund – if you don't, your employer will choose a fund for you. But why collect a new super fund every time you change jobs? More funds mean more fees and extra paperwork.

The right fund can make a real difference to how much you save for your future. So don't leave your choice up to someone else – keep your super in one fund that you know won't charge extra fees.

Tell your employer where to contribute

To have your employer contribute to your AustralianSuper account, complete the *Pay my super into AustralianSuper* form with this guide or at australiansuper.com/ChooseAustralianSuper and email it to your new employer.

Compare your super fund

Compare the costs, services and performance of different super products using the Super AppleCheck*, an independent online report produced by Chant West.

Before combining your super (and your other account closes) you should consider any penalties that may apply (i.e. fees and charges, effect on insurance cover and loss of benefits). When you combine your account any insurance you have with your other super won't automatically transfer to your AustralianSuper account. For more information about how to transfer cover, read our *Insurance in your super* guide at australiansuper.com/InsuranceGuide

STEP 4. YOUR TAX FILE NUMBER

Important information

1. You can't nominate a balance transfer date. The balance transfer will start within three business days of the date we receive your completed application.
2. Remember to check if your old fund charges exit fees and that you no longer need the insurance cover provided by your old fund (if any).
3. If you're making a whole balance transfer, check any remaining employer contributions have been received and no future payments will be made into your FROM account.
4. This form doesn't:
 - transfer super benefits if you don't know where your super is
 - transfer benefits from multiple funds on one form – you must use a separate form for each fund you wish to transfer
 - change the fund to which your employer pays your contributions

- open a new super account, or
- transfer benefits under certain conditions or circumstances, for example if there is a superannuation agreement under the Family Law Act 1975 in place.

Providing your TFN

The law allows super funds to ask for TFNs. You don't have to give us your TFN but it's a good idea if you do. If you don't, you'll pay more tax on super benefit payments and before-tax contributions, and we won't be able to accept after-tax contributions from you. It will also make finding lost super easier.

We follow laws on how we can use your TFN, which may change. If we transfer your super to another fund, we'll give your TFN to the other fund unless you tell us not to in writing.
