About this Product Disclosure Statement

This Product Disclosure Statement (PDS) is a summary of significant information and contains a number of references to important information (each of which forms part of the PDS). You should consider that information before making a decision about the product.

The information provided in the PDS is general information only and does not take into account your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

2 How super works

Super is an important way for you to save for retirement.

Super is an investment for your future and the sooner money starts going into your account, the better off you'll be when you retire. That's because over the long term your super grows from investment returns and money that's added to your account regularly.

There are a number of ways money can be added (contributed) to your account.

Contributions

Employers pay a compulsory contribution to your super known as the Superannuation Guarantee (SG). Currently this is 9.5% of your annual salary (subject to salary cap) and comes from your before-tax income.

There are also other types of contributions that could help you grow your super.

- › **Before tax*** - includes salary sacrifice contributions made by you, any personal contributions you claim a tax deduction for and voluntary contributions made by your employer for which they claim a tax deduction.
- › **After tax*** - includes any extra additional contributions you make from your take-home pay, for which you don't advise us you wish to claim a tax deduction.
- › **Government Co-contribution** - is based on your income. You may be eligible to receive Government Co-contributions if you make after tax contributions to your super. To find out if you're eligible, visit australiansuper.com/CoContributions

Tax breaks and incentives are provided by the Government to encourage you to save more for retirement and grow your super over time.

You generally can't access your super savings until you're 55 or over (depending on the year you were born). To learn more about preservation age, visit australiansuper.com/PreservationAge

It's your super, it's your choice

Normally you can tell your employer where you want your super to be paid. But in some cases, it depends on your employment contract. If you don't make a choice or tell your employer where you want your super paid, they'll pay your contributions into their preferred super fund.

* Depending on your income and personal circumstances, you may be better off contributing before or after tax, or using a combination of both. The Government places limits on the amount that can be contributed to super. To learn more, visit australiansuper.com/InfoTax

4 Risks of super

All investments, including super, have some risk.

How you invest your super will depend on your age, how long you'll invest your super, other investments you may have and your tolerance for volatility. Volatility is when the returns on your investment go up and down over a period of time. The level of volatility your super investment could have will depend on the types of assets that your super is invested in. Assets are investments such as shares, property, fixed interest or cash.

Different types of assets have different levels of potential return and volatility. Generally, higher returns are accompanied by greater potential for volatility in the short term.

You can choose from a range of investment options, each with a different mix of assets. So, the likely investment return and the level of potential volatility of returns involved is different for each option.

What you need to think about

When considering your super, it's important to understand that:

- › investment returns may go up and down over time and the value of investments will vary, so the value of your super may also go up and down
- › investing too conservatively can be risky because over the long term your investment may not earn a return above the inflation rate
- › returns aren't guaranteed, and you may lose some of your money
- › past returns aren't a reliable indicator of future returns
- › the laws affecting your super may change
- › the amount of your future super savings (including contributions and returns) may not be enough for your retirement.

5 How we invest your money

When you join AustralianSuper you'll automatically be invested in the default Balanced option – our MySuper authorised product, unless you choose a different investment option. You should consider the likely investment return, risk and your investment timeframe when choosing an investment option.

Investment details for the Balanced option

This option invests in a wide range of assets, with a higher allocation to shares, infrastructure and property than fixed interest and cash. It's designed for members seeking medium to long-term growth who are willing to accept short-term fluctuations in returns.

Investment objective

To outperform (after fees and taxes) the return of the median balanced fund and an average annual return of CPI + 4% over the medium to long term[†].

Minimum investment timeframe

Be prepared to stay invested in this option for at least 10 years before it meets its objectives.

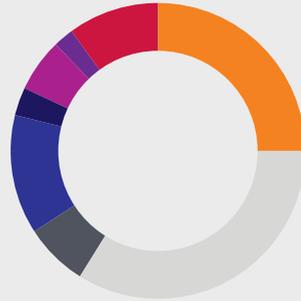

Risk levels

- › Short-term risk classifies investment options according to their likelihood of negative returns in a given year. This is also known as the Standard Risk Measure.
- › Medium-term risk balances two risks. The first is that your super savings will be reduced by volatility and the second is that your super savings will not keep up with inflation.
- › Long-term risk is the risk that your super savings will not keep up with inflation.

How often you can expect a negative annual return

Approximately 5 out of every 20 years.

Investment mix – strategic asset allocation* and range

- Australian shares **25%** (10–45%)
- International shares **34%** (10–45%)

[†] CPI stands for Consumer Price Index – which is used as a measure of inflation.

[‡] From time to time, we may invest in other assets which represent a short or medium term opportunity based on them being attractively priced. These include but aren't limited to assets such as commodities, royalties or leases.

6 Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You or your employer, as applicable, may be able to negotiate to pay lower administration fees. Ask the fund or your financial adviser.

To find out more

If you'd like to find out more, or see the impact of fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

Fees for the Balanced option

The main fees to set-up and manage your account are below. These are based on our Balanced option, and can be used to compare our fees with similar funds.

| Type of fee | Amount | How and when paid |
|--|------------|---|
| Investment fee | 0.74% | Deducted from before-tax investment returns on 30 June (earlier if you close your account), before the returns are applied to your account. |
| Administration fee | \$1.50 | The administration fee of \$1.50 per week is calculated weekly and processed monthly from your account. This fee is paid into the Fund's administration reserve and the Fund pays its administration costs from that reserve. The Fund claims a tax deduction for administration costs each year. The amount of the deduction is also paid into the reserve. |
| Buy sell spread | Nil | |
| Switching fee | Nil | |
| Exit fee | \$35 | Charged on withdrawals. |
| Advice fees* relating to all members investing in a MySuper product or investment option | \$0- \$295 | This is the cost for over-the-phone advice. For face-to-face advice, a higher fee applies which can be deducted directly from your account. |
| Other fees and costs | | Go to australiansuper.com/RefFees for information about other costs. |
| Indirect cost ratio | Nil | |

The Investment fee for our other investment options is different. This fee is calculated looking back as at 30 June each year. It may change from year to year.

* The financial advice you receive will be provided under the Australian Financial Services Licence held by a third party and not by AustralianSuper Pty Ltd (AustralianSuper) and therefore isn't the responsibility of AustralianSuper. With your approval a fee may be charged if a Statement of Advice is provided.

Example of annual fees and costs for a MySuper product

This table gives an example of how the fees and costs for the generic MySuper product can affect your superannuation investment over a one year period. You should use this table to compare this superannuation product with other superannuation products.

| Example – MySuper Product | | Balance of \$50,000 |
|---|----------------------------|--|
| Investment fees | 0.74% | For every \$50,000 you have in the MySuper product you will be charged \$370 each year. |
| PLUS administration fees | \$78 pa (\$1.50 a week) | AND you will be charged \$78 in administration fees regardless of your balance. |
| PLUS indirect costs for the MySuper product | Nil | AND indirect costs of \$0 each year will be deducted from your investment. |
| EQUALS cost of product | | If your balance was \$50,000, then for that year you will be charged fees of \$448 for the MySuper product. |

Note: Additional fees may apply.

The Trustee can change the fees which you may be charged. You'll be given at least 30 days' notice before any increase in fees takes effect.

Adviser service fee

If you get advice from an eligible adviser about your investment with AustralianSuper, you can have fees for the advice deducted from your account. The *Statement of Advice* provided by the adviser will state the fees (if any) that you will pay.

See how fees affect your super

Use our Fee Comparator at australiansuper.com/calculators or the Superannuation calculator at moneysmart.gov.au

You should read the important information about fees and costs before making a decision. Go to australiansuper.com/RefFees

This contains information about service fees and fees for our other investment options. The material relating to our fees may change between the time when you read this PDS and the day when you acquire the product.

7 How super is taxed

Tax on contributions

The tax paid on super contributions depends on the amount and type of contribution. Tax is deducted after the contribution is received. There are limits on how much you can contribute, and if you exceed these limits you may pay extra tax.

| Type | Tax on contributions in 2017/2018 |
|--------------------------------|--|
| Before-tax contribution | <p>If your income is \$250,000 or less, you'll pay 15% on amounts up to \$25,000 a year.</p> <p>If your income (including your before-tax contributions) is over \$250,000, all or some of your before-tax contributions will be taxed at 30%.</p> <p>You can choose to withdraw up to 85% of excess contributions, which won't then count towards your after-tax limit but will be taxed at your personal rate, plus an interest charge.</p> |
| After-tax contribution | <p>No tax on amounts up to \$100,000 a year (under current law).</p> <p>Any contributions over the current limit will be taxed at 47%*, unless you ask your fund to release the amounts over the limit.</p> <p>You can choose to withdraw any excess contributions plus 85% of its earnings. These earnings will be taxed at your personal rate. If you don't withdraw these amounts, they will be taxed at 47%* in the fund.</p> <p>There may be restrictions on the after-tax contributions you can make if you already have a very large balance in your super account/s.</p> |

Tax on investment earnings: Investment earnings are taxed at up to 15%. This tax is deducted from the crediting rate that applies to your super, before the earnings are credited to your account.

Tax on withdrawals: Your super is made up of two components: taxable and tax-free. There's no tax payable on the tax-free component. Withdrawals are generally tax-free if you're aged 60 or over.

Tax on the taxable component if you're under 60 in 2017/2018

If you're between your preservation age and 59, the first \$200,000 is tax-free and the balance is taxed at 17%*.

If you're younger than your preservation age, your lump sum withdrawal will be taxed at 22%*.

Tax on withdrawals is deducted before you receive your payment.

Tax rates, contribution limits and the way excess contributions are treated are subject to change. For the most up-to-date information go to australiansuper.com/RefSuperTax

You should provide your Tax File Number (TFN). If we don't have your TFN, your before-tax contributions and withdrawals are taxed at a higher rate and we can't accept after-tax contributions from you. You should read the important information about providing your TFN before making a decision.

Go to australiansuper.com/RefTFN The material relating to tax may change between the time when you read this PDS and the day when you acquire the product.

* Including the Medicare levy of 2%.

8 Insurance in your super

When you join AustralianSuper, you receive basic Death, Total & Permanent Disablement (TPD) and Income Protection cover, based on your age.

This cover gives you a basic level of protection if you die, or become ill or injured.

- › **Death cover** – provides a lump sum to your dependants or your legal personal representative (executor of your estate).
- › **TPD cover** – provides you a lump sum if you become totally and permanently disabled.
- › **Income Protection** – provides monthly payments if you become temporarily disabled.

This guide explains the cover you get when you join. For details about what your insurance does and doesn't cover, conditions for your cover or how much extra cover you're eligible to apply for, download our *Insurance in your super* guide.

Your basic level of Death and TPD cover is provided in units, and each unit provides a specific amount of cover for your age. You pay a set price for each unit. The cost for each unit does not change, but your cover reduces as you get older.

Units of Death and TPD cover you are provided when you join

| Age | Type of cover | Number of units | Cost per unit (\$) | Cost of cover*(\$) | Weekly cost for Death and TPD cover (\$) |
|-------|---------------|-----------------|--------------------|--------------------|--|
| 15-19 | Death | 1 | 0.679 | 0.68 | 0.68 |
| | TPD | 0 | n/a | n/a | |
| 20-24 | Death | 1 | 0.679 | 0.68 | 1.75 |
| | TPD | 1 | 1.072 | 1.07 | |
| 25-59 | Death | 3 | 0.679 | 2.04 | 3.11 |

| 60-69 | Death | 3 | 0.679 | 2.04 | 2.04 |
| | TPD | 0 | n/a | n/a | |

* The cost of cover is rounded to the nearest cent.

If you're under 25 when you join your cover will increase automatically when you turn 20 and 25. Your cover will increase to the amounts in the table above. But, if you make any changes to your basic cover, then your cover will no longer increase automatically as you get older.

If you're 25 or older when you join, you'll keep the same number of units unless you choose to increase or decrease your cover.

Amount of Death and TPD cover you are provided when you join

| Age | Death (\$) | TPD (\$) | Age | Death (\$) | TPD (\$) | Age | Death (\$) | TPD (\$) |

You can choose a fixed amount of cover, but the cost for your cover will generally increase as you get older. See our *Insurance in your super* guide for details.

When your cover starts

Your insurance cover won't start until you receive an employer contribution into your account. See our *Insurance in your super* guide for more information.

If you don't cancel your cover, the costs for your cover will be deducted from your account.

Basic Income Protection cover

The table on the next page shows the amount of Income Protection cover you get when you join and how much it will cost. If you're temporarily unable to work because you're ill or injured, you can be paid up to the monthly cover amount for up to two years. But payments cannot be greater than 85% of your salary* (with up to 75% being paid to you and 10% going into your super).

* Salary is your annual (before-tax) salary, excluding employer super contributions.

Income Protection cover when you join (based on a 60 day waiting period and a Standard work rating)

| Age | Number of units | Cover per month (\$) | Weekly cost per unit (\$) | Weekly cost for Income Protection' (\$) |
|-------|-----------------|----------------------|---------------------------|---|
| 15-24 | 0 | n/a | n/a | n/a |

| 55-69 | 0 | n/a | n/a | n/a |

* The weekly cost for Income Protection is rounded to the nearest cent.

If you're under 25 when you join, your cover will increase automatically when you turn 25. Your cover will increase to the amount in the table above. But, if you make any changes to your cover (including changing your work rating or waiting period), then your cover will no longer increase automatically as you get older.

If you're 25 or older when you join, you will keep the same number of units unless you choose to increase or decrease your cover.

If you have Income Protection cover outside of AustralianSuper, you may be able to delay the start of your Income Protection payments from AustralianSuper (if you are eligible).

What type of work do you do?

The type of work you do will determine your Income Protection work rating, which makes a difference to how much you pay for your Income Protection.

At AustralianSuper, there are three different work ratings – Standard, Low Risk and Professional. Generally, the riskier your job, the more you pay for insurance.

If we don't know what work you do, your Income Protection work rating will be Standard, which covers the riskiest jobs and is the most expensive cover.

If you spend at least 80% of your time in an office and don't do any manual work, you could pay less for your Income Protection cover.

If you think you may be eligible – answer the Income Protection work rating questions in the *Join AustralianSuper* form with this guide.

Limited cover

Limited cover means that you won't be covered for any illnesses or injuries you had before you got your cover. There are a number of reasons why your cover will be limited cover, including if you're not in active employment when your cover starts, you get extra cover without having to provide detailed health information, you're being paid income support payments, you've been paid a TPD benefit before, or your basic cover starts more than six months after you started work with your AustralianSuper employer. *(Continued on next page)*

Limited cover (continued)

If you increase your cover without providing detailed health information, your extra cover will be limited cover for at least two years. If your cover is limited cover for other reasons, limited cover may last for different lengths of time.

See our *Insurance in your super* guide for full details about when cover may be limited cover and how long it will last.

Active employment means you're employed or self-employed, and illness or injury is not restricting you from doing the normal duties of your full-time job (at least 30 hours per week), even if you are not working full-time. The Insurer makes this assessment.

See our *Insurance in your super* guide for full details.

Change your cover

You can increase, reduce or cancel your cover.

Increase your cover when you join

You can apply once for extra cover without providing detailed health information when you join online at australiansuper.com/join or using the *Join AustralianSuper* form in this guide. Age limits and conditions apply.

| Type of cover | Cover you can apply for with no health checks | Cover you can apply for with a few health questions |
|-------------------|---|---|
| Death or TPD | Up to \$600,000 | Up to \$1 million (cover above \$600,000 will be capped at \$1 million or 10 times your salary*, whichever is lower). |
| Income Protection | Up to \$10,000 a month or 85% of your salary* (whichever is lower). | Up to \$20,000 a month or 85% of your salary* (whichever is lower). |

* Salary is your annual salary (before-tax), excluding employer super contributions.

Higher cover is available but detailed health information must be provided – see the *Insurance in your super* guide for details.

Need more time to think about your insurance needs? Or did your employer open your account for you?

You can increase your cover without providing detailed health information after you join as long as you've never applied to change your Income Protection work rating or waiting period, change your amount or type of cover, or to transfer cover. You'll need to apply within 120 days of the date on your welcome letter. You can change your cover after 120 days but the health information you'll have to provide will be different. See our *Insurance in your super* guide for details.

Transfer cover from another insurer

You may be able to transfer your current Death, TPD or Income Protection cover from another insurer to AustralianSuper – see our *Insurance in your super* guide for details.

You should read the important information about insurance in your super before making a decision. Go to australiansuper.com/InsuranceGuide

4. CHANGE YOUR INSURANCE (OPTIONAL)

When you join, you receive basic Death, Total & Permanent Disablement (TPD) and Income Protection cover (age limits and conditions apply). This is described on pages 11 to 14 of this Product Disclosure Statement. You can complete this section to apply for extra cover without providing detailed health information. Any extra cover you apply for will be limited cover for at least two years. See our Public Sector Division *Insurance in your super* guide for details. If you don't choose to complete this section, and apply for insurance later, you may need to provide detailed health information.

Before you change your cover, you should read our Public Sector Division *Insurance in your super* guide. It contains all the terms and conditions about insurance, including what it will cost, your eligibility for cover, how much you can apply for, when cover starts and stops and any limitations or exclusions. Download a copy at australiansuper.com/InsuranceGuide

You may be able to transfer your current Death, TPD or Income Protection cover from another insurer to AustralianSuper, see our Public Sector Division *Insurance in your super* guide for details.

Need more time to figure out your insurance?

You can change your basic cover later if you need more time to think about your insurance needs.

If you need extra cover you may be able to increase it without providing detailed health information. We'll write to you with details on how to do this. You'll be eligible as long as you apply within 120 days of our letter and you have never applied to change your Income Protection work rating or waiting period, change your amount or type of cover, or transfer cover.

! If you're under 25 when you join, your basic cover increases automatically when you turn 20 and 25 (see details in this Product Disclosure Statement). But, if you make any changes to your basic cover, it will no longer increase automatically as you get older.

If you're 25 or older when you join, you keep the same number of units unless you choose to increase or decrease your cover.

4.1 Cancel your basic cover

Put an **(x)** next to each type of cover that you want to cancel.

Your answers to these questions will determine if you are eligible for a Low Risk or Professional Income Protection work rating or extra cover.

1. Are you: Yes No
- unemployed
 - employed and off work because you are ill, injured or have had an accident
 - unable to do all the duties of your usual occupation (without any limitation) full-time (at least 30 hours per week), even if you are working full-time, part-time or casually, or

DUTY OF DISCLOSURE

Your duty of disclosure to the insurer

Before you enter into a life insurance contract, you have a duty to tell the insurer anything that you know, or could reasonably be expected to know, may affect its decision to insure you and on what terms.

You have this duty until the insurer agrees to insure you.

You have the same duty before you extend, vary or reinstate your insurance cover.

You do not need to tell the insurer anything that:

- reduces the risk it insures you for; or
- is common knowledge; or
- the insurer knows or should know as an insurer; or
- the insurer waives your duty to tell it about.

If you do not tell the insurer something

In exercising the following rights, the insurer may consider whether different types of cover can constitute separate contracts of life insurance. If they do, the insurer may apply the following rights separately to each type of cover.

If you do not tell the insurer anything you are required to, and the insurer would not have insured you if you had told the insurer, the insurer may avoid the contract to provide you with that insurance within 3 years of entering into it.

If the insurer chooses not to avoid the contract, the insurer may, at any time, reduce the amount you have been insured for. This would be worked out using a formula that takes into account the premium that would have been payable if you had told the insurer everything you should have. However, if the contract provides cover on death, the insurer may only exercise this right within 3 years of entering into the contract.

If the insurer choose not to avoid the contract or reduce the amount you have been insured for, the insurer may, at any time vary the contract in a way that places the insurer in the same position it would have been in if you had told the insurer everything you should have. However, this right does not apply if the contract provides cover on death.

If your failure to tell the insurer is fraudulent, the insurer may have the right to refuse to pay a claim and treat the contract as if it never existed.

This means you are required to answer all of the questions in this form honestly and completely. If you are unsure about this requirement, call us on 1300 300 273.

- I'm aware I may ask my super provider for information about any fees or charges that may apply, or any other information about the effect this transfer may have on my benefits such as insurance cover, and do not require any further information.
- I discharge the super provider of my FROM fund of all further liability in respect of the benefits paid and transferred to AustralianSuper.

- I authorise AustralianSuper (or its agents) to contact my other super fund regarding this request to combine my super from that fund into my AustralianSuper account only.
- I'm aware that once my completed form is received by AustralianSuper, it will usually be processed within three business days.
- I've read the Privacy Collection Statement at the front of this form booklet and I understand how AustralianSuper will use my personal information.

I request and consent to the transfer of super as described above and authorise the super provider of each fund to give effect to this transfer.

Important information

1. You can't nominate a balance transfer date. The balance transfer will start with within three business days of the date we receive your completed application.
2. Remember to check if your old fund charges exit fees and that you no longer need the insurance cover provided by your old fund (if any).
3. If you're making a whole balance transfer, check any remaining employer contributions have been received and no future payments will be made into your FROM account.
4. This form doesn't:
 - transfer super benefits if you don't know where your super is
 - transfer benefits from multiple funds on one form – you must use a separate form for each fund you wish to transfer
 - change the fund to which your employer pays your contributions
 - open a new super account, or
 - transfer benefits under certain conditions or circumstances, for example if there is a superannuation agreement under the Family Law Act 1975 in place.

Providing your TFN

The law allows super funds to ask for TFNs. You don't have to give us your TFN but it's a good idea if you do. If you don't, you'll pay more tax on super benefit payments and before-tax contributions, and we won't be able to accept after-tax contributions from you. It will also make finding lost super easier.

We follow laws on how we can use your TFN, which may change. If we transfer your super to another fund, we'll give your TFN to the other fund unless you tell us not to in writing.
